Be It Officially Noted That

Based on examination of data provided by the above named measurer, the course described above and in the map attached is hereby certified as reasonably accurate in measurement according to the standards adopted by Athletics Canada/Run Canada. If *any* changes are made to the course, this certification becomes void, and the course must then be recertified.

Validation of a Calibration Course — A validation remeasurement may be required to be performed by a measurer recommended by Athletics Canada/Run Canada. If such a remeasurement shows the calibration course to be short this calibration course will lose its certification and all courses measured using this calibration course will have their certification canceled.
