Notice to Race Director
Use this Certification Code in *all* public
announcements relating to your race.

Be It Officially Noted That

Based on examination of data provided by the above named measurer, the course described above and in the map attached is hereby certified as reasonably accurate in measurement according to the standards adopted by the Road Running Technical Council. If *any* changes are made to the course, this certification becomes void, and the course must then be recertified.

Validation of Course — In the event a National Open Record is set on this course, or at the discretion of Athletics Canada/Run Canada, a validation remeasurement may be required to be performed by a qualified measurer. If such a remeasurement shows the course to be short, then all pending records will be rejected and the course certification will be cancelled.

This certification expires on December 31 in the year 2023

AS NATIONALLY CERTIFIED BY:

Bernard Conway Date: July 18/2014
Bernard Conway - Athletics Canada/Run Canada National Certifier
- IAAF/AIMS Grade A Measurer
- USATF/RRTC Final Signatory

Detail of the Turn at the South end of the Course

The turn at the South end of the course is laid out as a single point (cone) turn located in the middle of the paved pathway. The point for the turn is located by measuring 14.54 meters North from the Light Standard block (shown as Landmark Measurement Point) located just North of the bridge. Measure along the East side of the paved path to locate the nail in the pavement. The cone is to be placed in the exact centre of the pathway perpendicular to the location of the nail.

Athletics Canada Certified

BC-2014-080-BDC

Certification Expires Dec. 31/2023

Detail View of the Turn at the North end of the Course

The turn at the North end of the course is laid out as a single point (cone) turn located in the middle of the paved pathway. The point for the turn is located by measuring 6.5 meters North from the North edge of the Richmond Yacht Club entrance (shown as Landmark Measurement Point) along the seawall to locate the nail in the pavement. The cone for the turn is to be placed in the exact centre of the pathway perpendicular to the location of the nail.
