Course Information

Start elevation _____ Finish elevation _____
Elevation change _____ Percent separation _____

Measurer Information

Measurer name _____
Measurement date _____ Expiry date _____

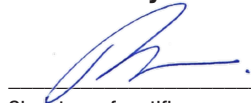

Official Notice

Based on examination of data provided by the above named measurer, the course described above and in the map attached is hereby certified as reasonably accurate in measurement according to the standards adopted by the **Road Running Technical Council**. If any changes are made to the course, this certification becomes void, and the course must then be recertified.

Validation of Course

In the event a **National Open Record** is set on this course, or at the discretion of **Athletics Canada**, a validation remeasurement may be required to be performed by a qualified measurer. If such a remeasurement shows the course to be short, then all pending records will be rejected and the course certification will be cancelled.

Sudbury Roger Street Calibration Course

Measured: 04/28/2024

Measured Average none-corrected distance: 342.331

Distance with temperature correction: 342.287

The Roger Street Sudbury Calibration measurement course is 342.287 meters as measured by steel tape from the closest outside center edge of a 6" metal water shutoff at the corner of Roger Street and Bancroft Drive southerly to another 6" water shutoff valve closest outside center edge at Roger Street and Mildred Street. Multiple 30 meter lengths were measured and marked on the pavement with tape and a label. Each direction was double measured by steel tape.

Measured by : Brent Walker, Stacy Halonen, Bob Jeffery
